

SENIOR CONSULTANT

Larry joined Pascarella & Wiker, LLP after over 30 years of diversified experience in both public accounting and private industry. Previously, he served as the Corporate Controller for an international manufacturer of coal mining equipment and for a fully integrated specialty steel producer. He has also directed the internal audit department at a major public university. Larry began his career with one of the national ("Big Four") accounting firms and as a senior audit manager served clients in a broad range of industries including manufacturing, mining, construction and not-for profit (governmental and educational) organizations.

During his career, Larry has gained experience in the following practice areas:

- Bankruptcy Support
- Interim CFO & Crisis Management
- Internal Audit Services
- Litigation Support
- Merger Acquisition and Divestiture Assistance

Larry's experience includes:

- Directing the financial integration of an acquired major coal mining equipment manufacturer, with multiple divisions utilizing different software and accounting systems, into the acquiring company's SAP system.
- Developing accounting and reporting systems that comply with the needs/requirements of foreign (German HB-2) and U.S. generally accepted accounting principles, and not-for-profit (governmental) reporting standards.
- Managing the internal audit staff of a major public university and developing a training and hiring program leading to the transition from an uncertified staff to a staff comprised of mainly CPA or CIA members.
- Assisting a large manufacturing company in the development of financial statements and the preparation of a registration statement for the company's initial filing with the SEC as a public company.
- Providing interim financial analysis, reporting and long-range forecasting services for a closely-held corporation in the security service industry.
- Preparing complex analyses of the activities of an engineering and construction company in support of successful litigation by the estate of the bankrupt company against its previous owner.
- Assisting the management of a recently spun-off specialty steel producer in the preparation of financial statements for its initial year of operation and several prior years, and coordinating the interface between the independent auditors and the company in the successful completion of such audits.
